After we spoke I had a dream that I broke  
The teeth from a mouth of a snake  
That I choked on the teeth  
They were mine all along

I picked up the pieces when I woke up  
Put them in a boat made of things  
That I don't want to see

I blew on the sail, watched it drift out to sea  
The further it drifted the closer it came to me  
I can't explain

So I took it apart, built a billion boxes  
There was only one key

And you might think I'm your enemy  
But that don't make you mine  
And all I have now is above thee  
I wish that you'd stop trying

Oh, please stop lying  
Stop la-la, la la la la la  
La-la la la la

Put hatred in a box then I locked it  
The strongest one I made  
I buried it all, grew a tree without thorns  
Sat beneath its shade

And you might think I'm your enemy  
But that don't make you mine  
And all I have now is above thee  
I wish that you'd stop trying

Oh, please stop lying  
Please stop la-la la la la la la  
La-la la la la  
La-la la la la la la la la  
La-la la la la
