Your shadow walks faster than you  
You don't really know what to do  
Do you think that you're not alone?  
You really think that you are immune to  
It's gonna get that the best of you  
It's gonna lift you up and let you down

It will defeat you  
Then teach you to get back up  
After it takes away  
All that you learn to love

Your reflection is a blur  
Out of focus  
But in confusion  
The frames the sun did burn  
At the end of a roll of delusions  
A ghost waiting its turn  
Now I see can right through it  
It's a warning that nobody heard

It will teach you  
To love what you're afraid of  
After it takes away  
All that you learn to love

But you don't  
Always  
Have to hold to your head  
Higher than your heart

You better hope you're not alone  
You better hope you're not alone  
You better hope you're not alone  
You better hope you're not alone  
You better hope you're not alone  
You better hope you're not alone  
You better hope you're not alone  
You better be hoping you're not so?  
Du du rut  
Hope you're not alone

Hmm hmm humm

Your echo comes back out of tune  
Now you can't quite get used to it  
Reverb is just the room  
The problem is that there's no truth to it  
It fading way too soon  
Your shadow is on the move  
And maybe you should be moving too

Before it takes away  
All that you learned to love  
It will defeat you  
Then teach you to get back up

Because you don't  
Always  
Have to hold your head  
Higher than your heart

You better hope you're not alone  
You better hope you're not alone  
You better hope you're not alone  
You better be hoping you're alone  
You better hope you're not alone  
You better hope you're not alone  
You better hope you're not alone  
You better hope you're not so?  
Du ru ru ru ru  
Hope you're not alone  
Hmm hmhm hmhm  
Better hoope  
Huuu huuu hmhm  
Better hope you're not alone  
Huuu huuu hmhm  
hoope
