Pardon me miss  
But I've never done this  
With a real, live, girl  
Let myself dare  
To go dancing on air  
With a real, live, girl

Pardon my holding you  
Terribly tight  
After I've dreamed of you  
Night after night  
I can't let go  
When I suddenly know  
That I found  
My ideal  
In a real, live, girl

I've seen photographs  
And facsimiles  
That have set my heart off  
In a whirl  
But nothing can beat  
Getting swept off your feet  
By a real, live, girl  
I'll overlook  
Everyone in the book  
For a real, live, girl

Girls were like fellas  
Once were my beliefs  
What a reversal  
What a relief  
I take the flowering hat  
And the towering heel  
And the squeal  
Of a real, live, girl
