My baby-baby-baby she's gone from me
My baby-baby-baby she's gone from me
She left me here alone, alone and so blue
Yes, my baby-baby-baby she was so untrue
My baby she's gone, I don't know what to do
What to do, what to do

Well, she left me here out in the cold
Don't know why her love is so bold
All I know she's gone, she's gone away from me
And I'm sittin' here waitin', goin' crazy
My baby she's gone, I don't know what to do
What to do, what to do

My baby-baby-baby she's gone from me
My baby-baby-baby she's gone from me
She left me here alone, alone and so blue
Yes, my baby-baby-baby she was so untrue
My baby she's gone, I don't know what to do
What to do, what to do

Well, she left me, she done found someone new
I'm alone, alone and blue
I'm sittin' here moanin', I feel all down
I don't know why I keep on hangin' around
My baby she's gone, I don't know what to do
What to do, what to do
Well, may baby she's gone
I guess she's gone to stay
