There's a quiet time  
When everyone goes home  
And I'm left standing here  
On the stage alone

When shadows paint the scene  
Where spotlights used to fall  
And now it's like a dream  
Did it happen after all?

Then I see you there  
In silent silhouette  
The glow of your cigarette  
Is like a shooting star

Lady of my heart  
Tell me who you are  
You've waited in the dark  
And I need you will be with me tonight

Lady, please reveal  
If what you are is real  
Can I touch? Can I feel?  
Just an image of you

I've listened to the cheers  
I guess I've heard my share  
But I was never sure  
Was it you out there?

Now I understand  
You've always been the one  
Who stood out from the crowd  
You're my inspiration

So take me by the hand  
Before the moment's gone  
I'll dance you into the dawn  
And dream you into my life

Lady of my heart  
Tell me who you are

You've waited in the dark  
And I need you will be with me tonight

Lady, please reveal  
If what you are is real  
Yeah, can I touch? Can I feel?  
Are you just a fantasy?

You're the lady of my heart  
I know you are
