It started feeling like October
I got stranded on the road
You know where to find me any time you want me
Annie, Annie use your telescope

It made my life into a movie
As if I could forget those years
But I know where the time's gone
Just not where my mind's been wandering
Annie use your telescope
[Annie Uses Your Telescope Lyrics On]
When it's late don't stop looking
When my eyes turn to glass
When it's late don't stop
Annie I will make it

Oh, is there anybody out there
Oh, I'm only getting farther
Oh

It started feeling like October
Annie use your telescope
Telescope
