[2x:] You never rot alone.  
Decomposition to the bone.

Left to dirt, feed the slime, absorb into the sand.  
Scratch the ground, mute among others, joint like a  
blent.

Ramming a bat in her cunt.  
Wrecking as deserving her pleasure.  
Stretch, no tear it up.  
No pain? Damn you dry-out slut.

Well...,  
you never know.  
Cause she doesn't blow,  
anymore...

[2x:] You never rot alone.  
Decomposition to the bone.

[2x:] Smash her knees, break her legs.  
Now she will - kneel for you.  
Stab her thigh, scratch her face.  
She will... - suffer for that!!

Scissors to let her look nice.  
Redness between her well-shaped legs.  
Still a laugh on her face.  
More pain she will get!

Left to dirt, feed the slime, absorb into the sand.  
Scratch the ground, mute among others, joint like a  
blent.

[2x:] You never rot alone.  
Decomposition to the bone.
