### "Dance With Somebody"

Visit "[Dance With Somebody](#)" on [MotoLyrics.com](http://MotoLyrics.com)

oh yeah  
oh  
one dance  
yeah oh  
oh

i still believe in love  
i might be the only one  
and leave my heart open  
to whatever this night can bring  
all these (?) got me thinking  
gotta be something here for me  
i'm not waiting by the wall  
and lose my only chance to fall in love (no)

no more standing alone  
i wanna dance with somebody  
wanna dance with somebody  
are you that somebody  
right here on the floor  
i wanna dance with somebody  
wanna dance with somebody  
are you that somebody

this might be the turning point  
to finally find what i want (yeah)  
i got nothing to lose  
that's why i came on to you  
even in a crowded room  
all these (?) got me thinking  
gotta be something here for me  
i'm not waiting by the wall  
and lose my only chance to fall in love (no more)

no more standing alone (yeah)  
i wanna dance with somebody  
(dance with somebody)  
wanna dance with somebody  
(dance with somebody)  
are you that somebody (yeah oh)  
right here on the floor

i wanna dance with somebody  
(dance with somebody)  
wanna dance with somebody (oh)  
are you that somebody (oh)

i know you're out there searching for me  
this is the moment come dance with me  
i know you're out there searching for me  
we don't have to stop just follow my lead and we'll  
dance

oh oh oh  
oh oh oh  
oh oh oh  
and we'll dance  
oh oh oh  
oh oh oh  
oh oh oh

said no more standing alone  
i wanna dance with somebody  
wanna dance with somebody  
are you that somebody  
(i wanna dance with someone)  
right here on the floor  
i wanna dance with somebody  
(wanna dance with someone)  
wanna dance with somebody  
are you that somebody  
(are you that somebody)

no more standing alone  
i wanna dance with somebody  
wanna dance with somebody  
are you that somebody  
right here on the floor  
i wanna dance with somebody  
wanna dance with somebody  
are you that somebody

oh oh oh  
oh oh oh  
oh oh oh  
somebody (somebody), somebody (somebody)  
are you that somebody
