Hey, oh, oh equilibrium  
Oh no

I think I found myself in a strange place  
Got me spinning like a satellite in outer space  
Gravity keeps pulling me your way  
I'm levelling out  
Cause before I was more like the player type  
Going home to a different girl every night  
I was stumbling tipsy fell into your life  
I'm sobering out

For the first time imma listen  
To what my heart is telling me, no more tripping  
I'm back on my feet, know what matters to me  
So imma keep it steady now, imma keep it steady now  
Ohhhh

I was upside down, couldn't balance it  
Fell off the train, but I'm back on the track again  
Odds were against me yeah without a doubt, but now  
I'm evened out.  
Do you know what you are?

Baby you're my equilibrium  
Baby you're my equilibrium  
Baby you're my equilibrium  
That's what you are, that's what you are  
ohh

There's no pressure when I'm with you I got room to  
breathe  
Took a dive, went for air and found stability  
Forget the moon and the stars, you're my galaxy  
You measure me out  
And there's no way I, can be away too long  
To be without you, the scale would just be off

Girl I need you wanna keep you here forever  
Ohh

For the first time imma listen

To what my heart is telling me, no more trippin  
I'm back on my feet, no one matters to me  
So imma keep it steady now, imma keep it steady now  
Ohhhh

I was upside down, couldn't balance it  
Fell off the train, but I'm back on the track again  
Odds were against me yeah without a doubt, but now  
I'm evened out.  
Do you know what you are?

Baby you're my equilibrium  
Baby you're my equilibrium  
Baby you're my equilibrium  
That's what you are, that's what you are  
ohh

Your love lifts me up off the ground  
We're taking off so don't look down  
In the atmosphere  
You and I, we can fly

I was upside down, couldn't balance it  
Fell off the train, but I'm back on the track again  
Odds were against me yeah without a doubt, but now  
I'm evened out.  
Do you know what you are?

Baby you're my equilibrium  
Baby you're my equilibrium  
Baby you're my equilibrium  
That's what you are, that's what you are  
ohh ... Equilibrium ... yeah
