[Verse 1]

This bed is cold
I'm all alone
Look up at the stars they laugh at me
Cause I screwed it up
I know what I said
I hear it again and again in my head
And it hurts cause I
Never saw the silver lining
And suddenly I understand
Only now I see you shining
You left me here with empty hands

[Chorus]

I never knew what you were worth
I never gave what you deserved
I never got down on one knee
Cause I was too into me
All the riches in the world
They will go away with just one word
Never should have let you go
Cause now I know your
Gold Dust, Gold Dust, Blowing in the wind
Your like Gold Dust, Gold Dust, Gold Dust

[Verse 2]

So hard to find,
I could search my whole life,
Looking for someone as precious as you
You were right in my grasp
Now it's all in the past
And if I could I'd go back there too
But I'm a fool cause I
I couldn't see it when I had it
I took a while to realize
All the other girls I'm pressin
Cause I don't feel a thing inside

[Chorus]

I never knew what you were worth
I never gave what you deserved
I never got down on one knee

Cause I was too into me
All the riches in the world
They will go away with just one word
Never should have let you go
Cause now I know your
Gold Dust, Gold Dust, Blowing in the wind
Your like Gold Dust, Gold Dust
I'll never see you again
Gold Dust, Gold Dust, Blowing in the wind
Your like Gold Dust, Gold Dust
I'll never see you again

I never knew what you were worth
I never gave what you deserved
I never got down on one knee
Cause I was too into me
All the riches in the world
They will go away with just one word
Never should have let you go
Cause now I know your
Gold Dust, Gold Dust, Blowing in the wind
Your like Gold Dust, Gold Dust
I'll never see you again
Gold Dust, Gold Dust, Blowing in the wind
Your like Gold Dust, Gold Dust
I'll never see you again

I'm all alone
Look up at the stars, they laugh at me...
