"Like Nobody's Watching"

Visit "[Like Nobody's Watching](#)" on MotoLyrics.com

it's just like your life is on the line
make sure you do it like this
nobody watching oh whoa whoa...

here it ends
me and you
don't care how many people in this crowded room
we got one chance to make it last forever, yeah
i see it in your eyes, the chemistry
i can tell by the way that you're holding me
don't hold back
this is what we've waited for oh oh...

don't be shy, you seem to meant to dance with me ooh
we don't have too much time so while we're here
tonight oh oh...

it's just like your life is on the line oh
make sure you do it like this
nobody watching oh whoa whoa...

just let the music save our life oh
come and dance with me tonight
nobody's watching
come on
nobody's watching
nobody's watching
come and dance with me tonight
nobody's watching
like nobody's watching now...

close your eyes
don't look around
pretend you're at home in the mirror getting down
it's in the air, everywhere
and you feel it too oh oh ooh...

girl that's fly, be free
this floor was made for you and me
and tonight it is the night oh oh oh oh whoa...

it's just like your life is on the line oh
make sure you do it like this
nobody watching oh whoa whoa...

just let the music save our life oh
come and dance with me tonight
nobody's watching
noooo
nobody's watching
nobody's watching
come and dance with me tonight
nobody's watching
like nobody's watching now...

we're in this phase
put your cell phone away with me
forget the world
it's just you and me together baby
i don't wanna let this go ooh...

it's just like your life is on the line oh
make sure you do it like this
nobody watching oh whoa whoa...

just let the music save our life oh
come and dance with me tonight
nobody's watching
come on
nobody's watching
nobody's watching
come and dance with me tonight
nobody's watching
like nobody's watching now oh
oh whoa whoa oh whoa...
