"Seven Days"

Visit "[Seven Days](#)" on MotoLyrics.com

baby..
you might think i'm a (?) falling
in love with (?)
she's my waterfall and i'm her island
and we shine under the moon
i was impatient tired of waiting then you came my way
(oh)
it started out from seven days
and my life has never been the same

oh look what me and you created
our love's growing stronger everyday, we made it
some people spend a life time searching for
what we got in seven here on earth
and it didn't take us a long way, only seven days,
seven days
and it didn't take us a long way, only seven days,
seven days
seven days to fall in love
seven days, seven days, seven days to fall in love
seven days, seven days, seven days to fall in love

she was weak in the knees within a week
for me i couldn't hardly speak
who says the best things in life aren't free
now i'm standing in here
now we're standing here face to face with one heart
beat (heart beat)
girl i know that you hear it
and ohhh

oh look what me and you created
our love's growing stronger everyday, we made it
some people spend a life time searching for
what we got in seven here on earth
and it didn't take us a long way, only seven days,
seven days
and it didn't take us a long way, only seven days,
seven days
seven days to fall in love

no you don't have to worry (no no)
forever is guaranteed (oh)
this ain't no mistake the love we made is meant to be
for us, for us
seven days..

some people spend a life time searching for
what we got in seven here on earth
and it didn't take us a long way, only seven days,
seven days
and it didn't take us a long way, only seven days,
seven days
seven days to fall in love
seven days, seven days, seven days to fall in love
seven days, seven days, seven days to fall in love
seven days, seven days, seven days to fall in love
seven days, seven days, seven days to fall in love
(love, love, love)
