So buckle up and prepare for take off
Cause love like ours is heading for the star
With your hand in mine I know Iâ€™m never lost
So close your eyes, prepare for take off, off, off, oh, oh

Me and you letâ€™s take it higher
Dancing till we tired, forget bout yesterday
Everythingâ€™s gonna be ok
Baby girl Iâ€™m your protector
Ainâ€™t no way Iâ€™m gonna let you
Stay here on the ground, weâ€™re taking off right now
Waiting for the one, well here I am
And if you want to fly, well baby hereâ€™s your chance,
Understand

So buckle up and prepare for take off
Cause love like ours is heading for the star
With your hand in mine I know Iâ€™m never lost
So close your eyes, prepare for take off, off, off, oh, oh

I got you levitating, you see itâ€™s elevating
So baby donâ€™t look down, I know you love it now
Somebody take a picture, cause I love flying with you,
All over the world, yeah
Waiting for the one, well here I am
And if you want to fly, well baby hereâ€™s your chance,
Understand

So buckle up and prepare for take off
Cause love like ours is heading for the star
With your hand in mine I know Iâ€™m never lost
So close your eyes, prepare for take off, off, off, oh, oh
