Oohh~ Ohh~  
She came to me, In a dream  
That was Very Part peculiar  
To tell me what was us, never was  
Baby, How did we go under?  
Shot through the heart  
This bullet is too hard  
Now I'm caught, and I'm bleedin'

Oohh~ Woahh~  
Who would believe it?

There's a beatin', in my heart  
And it's tellin' me that we're worlds apart  
I don't know  
Good things don't last long  
I know  
Because we're worlds apart~  
Because we're worlds apart~  
Because we're worlds apart~  
(If You believe in me, like I believe in you  
We'll never have to go further than words apart)

Awaken by a sound  
Scream so loud, my cellphone  
She must have discovered  
Voicemails saying that I love you  
Always thinking of you  
Somebody call 911!  
Cause I  
Shot through the heart  
This bullet is too hard  
Now I'm caught, and I'm bleedin'

Oohh~ Woahh~  
Who would believe it?

There's a beatin', in my heart  
And it's tellin' me that we're worlds apart  
I don't know  
Good things don't last long

I know  
Because we're worlds apart~  
Because we're worlds apart~  
Because we're worlds apart~  
(If You believe in me, like I believe in you  
We'll never have to go further than words apart)

Falling Apart  
Falling Further  
Falling From her  
Falling Worlds Apart

Falling Apart  
Falling Further  
Falling From her  
Falling Worlds Apart

There's a beatin', in my heart  
And it's tellin' me that we're worlds apart  
I don't know  
Good things don't last long  
I know  
Because we're worlds apart~  
Because we're worlds apart~  
Because we're worlds apart~  
(If You believe in me, like I believe in you  
We'll never have to go further than words apart)  
Worlds apart~
