"I Can Make It With You"

Visit "[I Can Make It With You](#)" on MotoLyrics.com

When the world was on my shoulders
& all hope for tomorrow was gone
You took my hand &, baby
You made me see there's a future for me

CHORUS:

I can make it with you, baby
I can make it with you
I can make it with you by my side

& when all life had lost it's meaning
When my dreams had been shattered by time
You touched my hand &, baby
You made me see there's a future for me

(chorus)

I remember when I was down
I'd been lost, but I've been found

(repeat chorus & fade)
