The weariness of life has crept upon me  
Dark clouds now burst above my head  
God's face appears although it veils from my presence  
But with authority and love these words He says

(Chorus)

I'm not finished until My glory shines upon you  
My workmanship is now being revealed  
These things must be endured but for a moment  
And I'm not finished until My glory can be seen

I'm not finished hear the words of My Father  
The hour of change is fast approaching now  
My grace will be imparted to you freely  
For the glory of the Lord is soon to come

(Repeat Chorus)

With my hands upraised and the strength of heart  
within me  
I shout a loud sustaining praise and now hope arises  
with a deeper faith and courage  
For the glory of the Lord is being revealed

(Repeat Chorus)
