I'm not going to be civil
I'm not gonna watch my tongue or what I say
I'm gonna dance with the devil
Gonna shovel out dirt for stiff and shallow grave

And I'm so gone
Such a long long way from home
I'm holding out for something I can't feel
'Cause I'm so lost
Such a long long way from home
I'm holding out for something I can't feel

Hey did you hear about Vegas
She's got mouths to feed and only one hole keeps
them fed
Hey it's starting to plague us
And it won't be long before someone else is dead

I'm so gone
Such a long long way from home

I'm holding out for something I can't feel
'Cause I'm so lost
Such a long long way from home
I'm holding out for something I can't feel
I can't feel

Oh now, nothing is sacred
Just do what you do just to survive
Show me something that's naked
I'll show you something that's alive

I'm so gone
Such a long long way from home
I'm holding out for something I can't feel
Yes and I'm so lost
Such a long long way from home
I'm holding out for something I can't feel
I can't feel, I can't
