Where, oh where, can I find some peace of mind?
How can I pacify this soul of mine?
I have searched the city streets
Asked the help of all I meet
And I must admit that it's got me beat this time
This time

Where, oh where, can I find some peace of mind?
How can I pacify this soul of mine?
I have looked on mountains high
Tried to live in the countryside
I've been searching high and wide this time

Peace of mind don't come easy
Yes I have noticed that
Peace of mind don't come quickly
Yes this is a fact

Where, oh where, can I find some peace of mind?
How can I pacify this soul of mine?
I have searched for many years
Cracked a smile and shed a tear
Can I overcome my fear, this time?
This time, this time

Peace of mind don't come easy
Peace of mind don't come quickly

Where can you find some peace of mind?
Where can you find some peace of mind?
