Sunset in slow, no place to go
Just sitting home and Im dreaming
The shade of our love that Im thinking of
Like the sun above, is now fading
And I feel like Im dead
There's a pain here in my head
Oh and Ive never never never felt so all alone
And now you see, now that Im free
Don't want to be on my own
The love that we had, now turning bad
Is now clad in sunset
And I feel like Im dead
There's a pain here in my head
And Ive never never never felt so all alone
And I feel like Im dead
There's a pain in my head
And Ive never never never felt so all alone
Well now I hear people say, well that's the way
Happens every day, son, you aint no exception
Well now it's all right for them, they'll love again
They're going to find their own direction
But me, I feel like Im dead
There's a pain in my head
And Ive never never never felt so alone
And Ive never felt so alone
