I've got my mind made up, I've got to love you or leave  
you fast

'Cause I've been thinking clear and I don't know how  
long it'll last

Just like Uri Gellar, I'm bound to twist the facts around  
Now, I've got to get them straight before my baby up  
and leaves town

'Cause I can't walk on water  
And if I chase you, I might drown  
And I'm already up to my neck

And if I may pose a question, it'll only take a second  
'Cause I know that it's getting late  
And depending on your answer, I might have to pack  
And make a daring daylight escape  
Because it's either high time to make you mine  
Or I swear it's time to get outta town  
So please say, "Yes" quick, 'cause the sun's going  
down

London's nice but it's the last place you wanna go  
Yeah, but there's no crime and you can catch a  
Broadway show  
'Cause it's just so far and it's bound to get a hold on  
you  
And I've got front page headlines pulled right outta  
yesterday's news

'Cause you can read all about it  
About boy meets a girl and then  
You screws the whole thing up

Just like always as I may pose a question, it'll only take  
a second  
'Cause I know that it's getting late  
And depending on your answer, I might have to pack  
And make a daring daylight escape  
Because it's either high time to make you mine  
Or I swear it's time to get outta town  
So please say, "Yes" quick, 'cause the sun's going  
down

But it's no crime to love you  
And my heart's still doing time  
But it's acting on it's best behavior

If I may pose a question, it'll only take a second  
'Cause I know that it's getting late  
And depending on your answer, I might have to pack  
And make a daring daylight escape  
Because it's either high time to make you mine  
Or I swear it's time to get outta town  
So please say, "Yes" quick, 'cause the sun's going  
down

'Cause the sun's going down  
'Cause the sun's going down
