"Gloomy Love"

Reasons deceive me, shut off completely
This has it all tonight
No interaction, only objection
I heard it all tonight, not what I had in mind

Growing with the hours I'm alone

Now you have said it, hard to forget it
Can't lose it all tonight
Chasing perfection, meeting rejection
I didn't know I 'd mind, not what I had in mind

Growing with the hours I'm alone
More than I ever would have thought
There's a lot to keep in mind
More than I ever could have known

Growing with me hours I'm alone
More than I ever would have thought
Still a lot to keep in mind
More than I ever could have known

Ohoh, gloomy love of mine
Ohoh, hidden star
