Meet me for a ride till tomorrow
Fill 'er up and turn the headlights on before you hit the
road
I said: 'understand where we're going'
Buckle up before the shock in case we run into a wall

Some day you and I will hit the sky but
I won't let go until that day
It's been decided, I want you to know
Must be going faster
Keep the rain behind us
I'll be with you whenever I get home

I've been on this road once before
Then gave up on getting off, there's only one way to be
sure

Some way you and I cannot decidebut
I won't let go until that day
It's been decided, I want you to know
Must be going faster
Keep the rain behind us
I'll be with you whenever I get home

Some day you and I will hit the sky but
I won't let go until that day
It's been decided, I want you to know
Must be going faster
Keep the rain behind us
I'll be with you whenever I get home
