Somewhere tomorrow I won't be forgotten
This aint not the best times, no need to be uptight
'Cos maybe we'll ride right up to the sky
We're gonna be together and it's alright

Why do you get her, stay here with a lolly
We'll go to the city, repulsively pretty
'Cos maybe we're bound to stay underground
We cannot be together and it's alright

We'll stick to this matter for worse and for better
It's not realistic but quite optimistic
'Cos maybe we're bound to stay underground
We cannot be together and it's alright

See her soul roaming 'round the sky
Ohoh (don't let me down)

Somehow tomorrow don't offer me nada
It's hasta la vista, Goodbye to Barruschna
'Cos maybe we'll ride right up to the sky
We're gonna be together and it's alright

See her soul roaming 'round the sky
Ohoh (don't let me down)
