You know you space me out
And you mess me up
And I checked you out
So won't you step right up
You know you space out
And you mess me up
And you round me down
So wont you step right up
Wont you cool me out ,
Cus I gun for you
Chorus
Don't you know I gun for you
Tell you that I gun for you
Don't you know I gun for you
Tell you that I gun for you
You know you come around
And you walk right in
You know you burn me up
And then you cool me out
Well you walk right in and you shoot me down
And you burn me up
So won't you step right in, won't you cool me out
Cus i gun for you
Chorus
You know you wind me up
And you reel me in
Oh girl you spin me round
And then you set me off
You know you wind me up and you reel me in
Oh girl you spin me round
So won't you step right up and won't you cool me off
Cus i gun for you
Chorus
