Well I surely can show you  
Where you can go stuffing the rest of your memories  
Another downer for the really down  
We used to run around the secret cemetery  
It had a chemistry you rarely find  
This glue can keep it all together  
But it can break like a glass when you blink at it, just  
like that  
But we keep eleven on, just this once

Someone has to be there in case it's on for real  
Can never spend a day without the real appeal  
And maybe b-baby it's as real as a clock  
So let it come, and let it come, and let it come, and let  
it rock

Well I haven't come this whole way just to put you down  
It's been a long and winding day  
The superglue can keep it all together now  
But there's a price that you will have to name  
This glue can keep it all together  
But it can break like a glass when you blink at it, just  
like that  
And we keep eleven on, just this once  
Keep it on, eleven on, keep it  
Keep it on, eleven on, keep it on  
Keep it on, eleven, eleven on

Someone has to be there in case it's on for real  
Can never spend a day without the real appeal  
And maybe b-baby it's as real as as clock  
So let it come, and let it come, and let it come, and let  
it

Someone has to be there just in case it's on for real  
Can never spend a day without the real appeal  
And maybe b-baby it's as real as as clock  
So let it come

Keep it on, eleven on, keep it  
Keep it on, eleven on, keep it on

Keep it on, eleven, eleven on
