You should understand there's no way out  
And you've got exactly what you asked for  
Welcome to the world of sound,  
Lesson one you don't walk out, oh no

It's a chance in a million, path of gold  
We are all transparent now, been on hold  
Baby, baby what you're talkin' about  
You're not making sense at all, oh no

Run along  
You don't wanna fall behind and walk alone  
You better give it something extra or you're gone  
It's the meat loving kind, they mean no harm

You got me chained  
My mind is toast  
You're all deranged  
Now let me go  
Welcome to the world of sound  
Lesson one you don't walk out, oh no

Run along  
You don't wanna fall behind and walk alone  
You better give it something extra or you're gone  
It's the meat loving kind, they mean no harm
