

Caedmons Call

"Prince Valium"

Visit "[Prince Valium](#)" on MotoLyrics.com

You disappeared
Into thin air
Went up in smoke
And now you're here

It's not about
Helping you out
No psycho-tool
Will ever do
Just come on out of your piggysty and explore

You disappeared (I know that it's about)
Into thin air (I couldn't help you out)
Went up in smoke (I know that it's about)
And now you're here (I couldn't help you out)
Come on out of your piggysty and explore

Had a dream tonight where you were walking in my
room
Jumped up tried to hit the light but I fell right through
the floor
Something told me I would never find you anymore
What a scary feeling to be left here all alone
Had a dream tonight and it was wrong

Come on out of your piggysty and explore
