

## Caedmons Call

### "Situations Complications"

Visit "[Situations Complications](#)" on MotoLyrics.com

Life gets so much easier when you're stoned  
Yeah life gets so much easier on your own  
It's hard to get down this medicine we call time  
There's a lot of it and just me who's on the line

Situations complications  
Situations no no no, complications, oh oh

Life gets so much easier when you're stoned  
For it's hard to get down my medicine on my own

Situations complications  
Situations no no no, complications, oh oh

Life gets so much easier when you're...stoned!  
Still it's hard to get down my medicine down my throat  
Situations complications  
Situations no no no, complications, oh oh
