

Caedmons Call

"Stellar Road"

Visit "[Stellar Road](#)" on MotoLyrics.com

Look at me satellites, I'm up tonight
Deeply infected we are stereo
You never know where the trail goes
I'm up for what comes,
Tomorrow we'll be walking on the moon

Please mister rocketeer, take me out of here
We've got a very special trip in mind
I will be out on the fire escape
Where it's always safe
Check on my cat for she is all I bring along

Please mister rocketeer, take me out of here
Life is getting messier it's falling apart
I wanna go down the stellar road
Meet with my cat for she is home alone too
