You say we've got nothing in common

No common ground you step on

And we're falling apart

You say the world has come between us

Our lives have come between us

Still I know you just don't care

Refrain:

And I say, what about breakfast at Tiffany's

You say, I think I remember the film

And as I recall I think we both kinda like it

And I say, well that's the one thing we got

I see you the only one who knew me

And now your eyes see through me

I guess I was wrong

Somewhat now, it's plain to see we're over

And I hated the prisoner in August

So much is left on by

Repeat Refrain (3x)

The one thing we got
