It's All A Part Of Love  
Jackie Wilson

One day your sad, the next day you're glad  
And it's all a part of love  
One day your heart may be breaking and then  
The next day it's mended again

One day you laugh, the next day you cry  
And it's all a part of love  
This is the story for thousands of years  
Love's made of laughter and tears

There's good and there's bad,  
in the game of love they say,  
But there's much more good than bad, for  
People fall in love, everyday

Aw, but one day your dream, goes  
tumbling it seems, and it's all a part of love  
Next day you kiss and you're in heaven above  
And it's all a part of love  
Yes, it's all a part of love
