You say there is no other
Who treats you like i do.
But i talked to your father and mother,
And they both say it's through.
Now youve headed back tot he east coast
In a brand new car.
All my letters returned unopened
Just to see how you are;
As you say
Why can't we be
Why can't we be
We be friends (X2)
You say the world isn't over
Its just a different place
Though you're no longer around me
You send pain by the case
And i guess this thing wasn't working
So ending it was best
But i just can't seem to menouver
This weight off my chest
As you say...
Cuz im not ready
You say there is no other
Who treats you like i do
But i found myself with another
And youve found someone else too
The pain is now in recession
And lucid are my thoughts
Then you whisper for me to come closer
And it seems like you forgot
That you said
Why can't we...
Why must this be the end?
Why can't we be
Why can't we be
Why can't we be friends
Why wont you be my friend
Cuz im not ready
Im not ready
Im not ready
Im not ready
