"Situations Complications"

Visit "[Situations Complications](#)" on MotoLyrics.com

Life gets so much easier when you're stoned
Yeah life gets so much easier on your own
It's hard to get down this medicine we call time
There's a lot of it and just me who's on the line

Situations complications
Situations no no no, complications, oh oh

Life gets so much easier when you're stoned
For it's hard to get down my medicine on my own

Situations complications
Situations no no no, complications, oh oh

Life gets so much easier when you're...stoned!
Still it's hard to get down my medicine down my throat
Situations complications
Situations no no no, complications, oh oh
