Me against the world is the way I'm gonna live
Many lies I've heard they got nothing to give
They told me to close my eyes and look at all the stars
Well all I see is darkness cos the light's too far
They've been playing me like a game of chess
Just a shot away from my final rest
It's time to stop playing with the dirt
Cos they got nothing to give oh haven't you heard

D# world gimme nothing - no nothing now
D# world gimme nothing - no way now
D# world gimme nothing - no nothing now
D# world gimme nothing - my God....

Sick and tired of running from funeral to funeral
Cos somebody tried to stand up for what is right

The streets are covered with pimps and whores
Everyday I see more and more Capones
Send to jail cells burning flesh smells
As more and more bodies are being sent through hell's
gates
If all I will do is sit back and relax
Then one day I'll be paying an expensive tax yo

D# world gives me none
