I don't want to see and no you can't make me  
Believe in everything I won't eat what you offer me  
Cos you disgust me with your dirty sin you see  
Yo God has set me free I'm free as a bird can be  
Is it you I see or just another me  
In the mirror well I don't know cos it's hard to be  
Optimistic when your soul is twisted  
So what you gotta do is take your sins  
And let 'em burn now

Can't you hear what I say?  
Don't you see this I do?

Only my God is great enough to save from this thing  
Burn the dirt that you have found  
You gotta flush it down  
Burn the dirt that you have found  
You gotta flush it down
