Shadow of death talking my life as I'm walking alone
feeling the pain for
every simple second seeds you to sown as I'm blown to
desert and adjusting the wind
Found my inner seeming nothas' where to begin my life
surden as the burden for the
Search for meaning as I'm screaming 'n bleeding
against the what you were seeing
My life's worthless for the sight, you fastword, you
loved me everytime when it hurts

Won't you come across that scene
And tell me what ya mean
Uttering how God can see me but I can't see Him
Won't you come across that scene
And tell me what ya mean
It doesn't fit into my head but into my heart instead

God you see me
God you see me

And now that I'm hurting I can feel away the weight of
the world on my

shoulders and as it's causing this life, 'cause world just
keeps gettin colder
And older I get the more that I hate still beatin' down
myself with the
satan I created and all my dreams are shed, but what it
will matter....
Jesus hold in your arms as I lost my mind, like the dog
that claims no hell
never crossed my mind

There is no cave that you could hide from Him
He is the light that cleans us from sin
Into 5 star hotel into dustbin
He can see you but you can't see Him
