Sun going down in the usa
Down on main there's a family sleeping in a doorway
Around the corner you can hear the sound
People dancing around the golden calf
Those who have not, those who have

On the billboards and the t.v. screens
They got food and cars and toys and trucks and jeans
Like a homeless child's fitfull dreams
Smiling faces free from wanting
Life's abundances beyond counting

World in motion -- speed your changes
Close your distances, find your angels
Lose your fears and meet your dangers
World in motion

Once we were running through smoke and fire
Running into the sun
In the rush of youth, for love and truth
Our deeds were done
Now we awake with a world at stake

And a race we run
We run

Sun going down on the usa
Sun coming up a hundred years away
On another world and another time
Things like hunger, greed and hatred
One way or another, gonna be eradicated

World in motion -- speed your changes
Close your distances, drive your angels
Lose your fears and meet your dangers
World in motion

'till the world I look out at this world and see
Is the world I know this world can be
You have a volunteer in me
Now come on
