(words and music by Joe Jackson)

Slow down, you know you're leaving me behind  
You seem to think that you can read my mind  
You think I'm rich, you think I'm free  
You wanna change your place with me  
Be a leader then the blind can lead the blind  
Happens all the time

Chorus:

Can't you understand...  
Enough is not enough is not enough is not enough...  
It's not enough

I've been filled with culture, I've been filled with lies  
And compliments from people I despise  
Shake my hand and sing along  
Always getting one line wrong  
Shout for more when I know I just died  
Died...

Chorus

So - when I think I know my way around  
I'm gonna take a bus to the other side of town  
Gonna stay out all night long  
Gonna sing some strange new song  
Lose myself and hope I don't get found  
Don't ask me how

Chorus
