(words and music by Joe Jackson)

Hey - did you ever see so many stars in the sky
Yeah - and can you imagine how many we can't even
see

Image we're in the middle of the Galaxy
Yeah - Imagine how many blazing star's there'd be

They're gonna build a ship to take us there soon
If you can wait a year or two you'll see...

We're gonna fly in tomorrow's world
And there'll be cities on the moon
No one'll die in tomorrow's world
And miracles will happen soon
In tomorrow's world

Hey - d'you remember that rocket they blasted into
God know where
Yeah - with the pictures for someone to find
With chemical symbols saying
Hi how you doin' the folks out there
Yeah - they put the Bach music in
Left all the shit behind

Sometimes I think we should be sending out an SOS
But mostly I just think of all the things that I can't wait to
see

We're gonna live in tomorrow's world
We'll live on power from the sun
We're gonna live in tomorrow's world
And there'll be food for everyone
In tomorrow's world
