I saw you at the club tonight  
Mixed up in some kind of fight  
Chairs were flying all around  
The kids fight to the modern sound

Let's burn the whole city down  
Burn the whole place down  
Burn it to the ground

I saw you standing on the corner,  
And I could see what you were thinking  
I know you're freezing and it's dark  
If you got the fuel I've got the spark

Let's burn the whole city down  
Burn the whole place down  
Burn it to the ground

So dance while you still have feet  
And smile while you still have teeth  
There's nothing happening anymore  
There's not a single living soul

They've burned the whole city down  
Burned the whole place down  
Burned it to the ground

They've burned the whole city down  
Burned the whole place down  
Burned it to the ground
