### "Down Down Down"

Is that you again?  
Coming down again

Life been such a gas but fun gets never end  
With all those fancy parties and your paper friends  
You're going down again  
Down down down again  
Wash it down the drain

Slurring in my ears and it makes no sense my friend  
Stumbling down the stairs and hit your head again  
You're on your face again  
You're down down down again  
Wash it down the drain

Life been such a gas but fun gets never end  
With all those fancy parties and your plastic friends  
You're on your face again  
Is that you again?  
Coming down again

Life been such a gas but fun gets never end  
With all those fancy parties and your plastic friends  
You're going down again
