Time to get the riot started  
Starry eyed and down for whatever  
Take your aim and hit the target  
Ready-steady-go for whenever

This monkey-nation  
Is coming out the basement tonight  
And when the whip cracks downâ€¦  
You better start to move your feet  
Cause those sixteen tons fall heavy  
When they hit the street  
And when the walls come down  
We'll be shaking like there's no tomorrow  
Oooohhâ€¦Yeahâ€¦

Five times five you'll never make it out alive  
Nine times nine it's time to let your diamond shine

This zombie-nation  
Is coming out the closet tonight  
Yeah when the Freaks come out  
They will take the lead and you will follow  
And when the walls come down  
We'll be shaking like there's no tomorrow  
Oooohhhâ€¦oooh Yeaahh

Time to get the riot started  
Starry eyed and down for whatever  
Take your aim and hit the target  
Ready-steady-go for whenever

This monkey-nation  
Is coming out the basement tonight  
And when the whip cracks downâ€¦  
You better start to move your feet  
Cause those sixteen tons fall heavy  
When they hit the street  
Oooohhâ€¦Yeahâ€¦
