"Perfect Match"

Visit "[Perfect Match](#)" on MotoLyrics.com

In another dimension,
In another existence,
Some other person
Who is totally different

This might just work out fine
It might work out between you and me
We might be lovers there
We might just be a perfect match

In another dimension,
In another existence,
Some other person
Who is totally different

This might just work out fine
It might work out between you and me
We might be lovers there
We might just be a perfect match
