It's gonna blow right over your head  
I'm gonna creep around in your bed  
I'll be a hundred steps ahead  
I know you think you've been misled

I'll make it smash right into the wall  
And take it to you, I could crawl  
And I'll be better taste the last drop  
There's a chance up taking last shoot

I'm gonna shake you out of my mind (shake!)  
And you know it's right about time (shake!)  
I'm gonna shake you out of my mind (shake!)  
And you know it's right about time

It's gonna blow right over your head  
I'm gonna creep around in your bed  
I'll be a hundred steps ahead  
I know you think you've been misled

I'm gonna shake you out of my mind (shake!)  
And you know it's right about time (shake!)  
I'm gonna shake you out of my mind (shake!)  
And you know it's right about time

I'm gonna shake you out of my mind (shake!)  
And you know it's right about time (shake!)  
I'm gonna shake you out of my mind (shake!)  
And you know it's right about time (shake!)
