### "You Nailed Me"

You nailed me, you nailed me  
Again to the wall  
You stained me, you stained me  
It won't wash off

I thought I was free from the past  
I thought I was free from your grass  
But you kicked me back into that home  
Down the same old dead end street

You nailed me, you nailed me  
Again to the wall  
You stained me, you stained me  
It won't wash off

You complain that I'm always in space  
Seems you can't like a thing that I do  
Still I'm wandering around in the mace  
And it brings me back to you

You nailed me, you nailed me  
Again to the wall  
You stained me, you stained me  
It won't wash off  
No it won't wash off

Now we're breaking up  
Now we're breaking up  
Now we're breaking up  
Now we're breaking up
