I've got ladyfingers baby
I got kid gloves
Baby I've got heart

If you need me to be sweet
Then I can give you what you need
'Cause I know you never came first baby
I'm so tired of my guns and my vanity
I'd like to trade 'em in for some sanity
And I know it didn't come to easy
It didn't come easy to me either
From the freezer to believer in love, in love

Chorus:
Well I got ladyfingers baby
I got kid gloves
Baby I got heart, I got heart
I got ladyfingers baby
I got kid gloves
Baby I got heart, I got heart

I bet you didn't know that I could treat you right
That underneath the armour there's another good girl
She's standing with her suitcase
Ready to run, in case you're wondering
Why she's so quick to come and go
Why she's so quick to come and go

She might be new, she might be old
She might be scared as hell
She might not be so bold
She might not be so bold

Chorus (x2)
