Gotta find a way somehow
Nothing's gonna stop me now
Gotta find a way somehow
Even though you're gone
Even though you're gone

Things don't look as bad
As they did yesterday
Even minute I get stronger
Somehow some way

'Cause I gotta keep on living
I got the will to survive
Even though I feel so bad
So bad inside

Gotta find a way somehow
Nothing's gonna stop me now
Gotta find a way somehow
Even though you're gone

All the plans I had
I've got to give them up and start anew
Making plans for one
Instead of making plans for two

From now on I'll be thinkin'
Thinkin' 'bout myself
It'll be a long, long time
Before I love somebody else

Gotta find a way somehow
Nothing's gonna stop me now
Gotta find a way somehow
Even though you're gone

I depended on you for everything
Oh, I really trusted you
How could you do me the way you did
You really let me down

Gotta find a way somehow

Nothing's gonna stop me now
Gotta find a way somehow
Even though you're gone

Even though you're gone
Even though you're gone
Even though you're gone
Gotta keep livin' on

Even though you're gone
Even though you're gone
Gotta move on, yeah

She's gone away, she's gone away
(She's gone away)
She's gone
Gotta keep movin' on

She's gone away, she's gone away
She's gone
(Even though you're gone)
She's gone away, she's gone away
She's gone

She's gone away, she's gone away
She's gone
(I gotta keep movin' on)
Even though you're gone
Even though you're gone

Even though you're gone
Even though you're gone
