"Everybody"

Visit "[Everybody](#)" on MotoLyrics.com

By Michael Jackson, Tito Jackson and Mike McKinney)

Oh, everybody, get down on the floor

I love the way you shake your thing

You make me want some more

I've had my days of standing on shaky ground

I want my life so fancy-free

I know that I can do it

I have to let me be

And I've had enough

And I know What's right for me

I've done my time and I have paid the price

All you have to do

Is state my name out loud

Forget your worries

And let's dance and shout

All you have to do

Is state my name out loud

Oh, everybody, get down on the floor

I love the way you shake your thing

You make me want some more

This time I'm leaving all my cares behind

I've tasted the good life and it's fine
No more to pain and strife, this life's waiting to be
And I've had enough
And I know what's right for me
I've done my time and I have paid the price
All you have to do
Is state my name out loud
Forget your worries
And let's dance and shout
'Cause we're here to live so free
I've got to let me be
Oh, everybody, get down on the floor
I love the way you shake your thing
You make me want some more
Oh, everybody, get down on the floor
'Cause I love the way you move,
Shake your thing
You make me want some more
