"Good Times"

Visit "[Good Times](#)" on MotoLyrics.com

I think about the good times
We shared together

Whenever I think of you
Something goes through my mind, through my mind
My heart starts churning
I wanna see you again

I think about the good times
Nothing but the good times
I think about the good times
We shared together

Oh, like holding hands
Remember how we made our plans
We used to dream on a star
How did we get like we are

I think about the good times
Nothing but the good times
I think about the good times
We shared together

It's funny things don't always
Go the way you want them to
Although we're not together
(Although we're not together)
I treasure my experience with you

Oh, like exploring love
Moonlit sky above
Learning how to give
Learning how we should live

Oh
(Good times)
(The good times baby)
I think about it
(Good times)
We shared together
Oh
(Good times)

Ain't nothing like the good times
(The good times baby)
I think about it

About the good times
We shared together
(The good times baby)
Together, together
I think about it
(Long as we live)
I remember, yes I remember
(The good times baby)

As long as we live
I'll think about
(The good times, baby)
Yes, the good times
The real good times
(Holding hands)
(Exploring love)
(Learning how to give)
(Learning how to live)
(Learning how to love)
(The good times, baby)

(Good times)
Good times
(The good times, baby)
Yes
(Good times)
The good times
(The good times, baby)
Yeah
(Good times)
(The good times, baby)
