We're gonna change our style
Bring on a brand new style
We're gonna make funky music

Swing to a brand new beat
One that is more unique
Listen to the music, go wow, go wow

Unchain, unchain that sweet melody 'cause it's passe
The words might rhyme half of the time, ain't much to
say
Remember when we used to sing

Ooh ahh, tu do do do, ooh ahh
Ooh ahh, tu do do do, ooh
Let's turn it over, inside out

We're gonna change our style
Bring on a brand new style
We're gonna make funky music, yeah, yeah, yeah

Give me that funky music, funky music, yeah
Give it to me baby, play it for me baby
Give, give it to me, give it to me baby

Give it, give it to me baby, uh
That funky music
Oh, that soulful music
Yeah, give me that funky music, groovy music

Let's do it baby, baby let's do it
We're gonna make funky music, uh
We're gonna make funky music

We're gonna make funky music
We're gonna make funky music
We're gonna make funky music
We're gonna make funky music
